

Center Stage PossABILITIES loves serving our community of people who are differently abled, by creating a place for them to come together and learn about faith through theater. Our season typically starts with an audition in January, rehearsals February through May, and a full theatrical production in June. COVID has greatly impacted this schedule, but we are hoping to be back on track for the 2021-2022 year. If you are between the ages of 14 and 25, enjoy singing, dancing and exploring your faith, we would love to have you come out and audition. It's a big commitment, with extraordinary results. Please follow our website for updates on our 2021-2022 season production of Lola and the Big Fish.
